

## Trip to Nice!

Nice has long been a favorite place to hibernate for the nobility from the cold north. Queen Victoria and King Leopold II were regular guests. Artists such as Matisse and Chagall were hit by the light and atmosphere of Nice.

Today, Nice is a fine holiday destination for everyone. The attractive center with the small winding streets and picturesque squares, the nice restaurants, chic boutiques, fascinating museums and the timeless Promenade des Anglais make that Nice is still a gem to the south.
