

Always been a dream to swim with the dolphins?

Also in the South of France this can become reality! In Mandelieu, close to Cannes, you can make a dolphin trip with the "Annet". Captain Thierry will take you to the open sea and will find the dolphins in no time. The boat goes to Pelagos, where they do a lot of research to the dolphins. It is also important that the animals won't become afraid of people. That's why the boat will lie still first, before people can go in to swim.

European bizens en przewalski horses

About 30 kilometres north from Grasse you will find Domaine du Haut Thorenc. Here you will find European bison together with Przewalski horses on one area. Two very extraordinary species; the bison was almost gaunt in Europe and the Przewalski horse is the only horse never been tame by humans. You can walk in this nature guided for 2 hours. You can do this by walking but also with a horsecart with horses.

On the coast where the French Riviera goes over in Italian land, you will find Menton. A village with a lot of culture and a lot to visit. The following things, you can't miss;

- The seventeenth century basilica Saint-Michel Archange
- Museum at the Palais Carnolès
- The park garden just outside the centre of Menton, the Serre de la Madone
